A word or two about Otway pork

Otway Pork pigs are bred near the Otway Ranges in South Western Victoria. The pigs are born outdoors. From birth, Otway Pork pigs are free to play, forage and do what all pigs do best - roll in the mud, play and sleep in straw, eat a healthy diet and drink fresh clean water freely. To protect them from the natural elements they have free access to large straw lined shelters, where they can move about, play, exercise and socialise. At no stage is their welfare compromised, and there is absolutely no use of sow stalls or farrowing crates and they are not kept on concrete floors. **Otway Pork** pigs are fed a natural grain based diet which is free of antibiotics and growth hormones.

The RSPCA believes that the welfare of pigs is paramount, and by giving accreditation to **Otway Pork**, pigs will be able to enjoy an enriched environment during their lives.

"The Black Pig" Free Range Barossa Hams

This year we have been able to secure a quantity of free-range Berkshire legs from **Saskia Beer's Barossa Farm Produce** in South Australia. These traditionally wood smoked and slow cooked hams are hand made by our own expert smallgoods makers. They are succulent and sweet with a high amount of intramuscular fat which makes them ideal for glazing without drying out. All **Saskia's Heritage breed pigs** are sourced from small free range Artisan producers in the Barossa, Light and Southern Vales districts of South Australia.
